WORK EXPERIENCE

Company:	SNAPP VENTURES INC. (MATCHMO)
Duration:	June 26, 2023 – August 17, 2023
Position:	Student Intern
Company Industry:	Financial Services
Location:	Muntinlupa City, National Capital Region, Philippines
Department:	Engineering Department
Job Description:	

As a Former Engineering Department Intern at MatchMo Company, I played a crucial role in ensuring the quality and reliability of their software products during your internship. My contributions were invaluable in maintaining a seamless user experience. My responsibilities included:

- Bug Detection and Prevention:**
 - Proactively identified and reported software bugs and broken flows during the development and testing phases.
 - Collaborated with developers to rectify issues, ensuring the highest possible product quality.
- Test Plan Development:**
 - Created comprehensive test plans and strategies based on feature specifications provided by the development team.
 - Ensured that test plans covered all relevant aspects of functionality and performance.

3. Collaboration with Developers:

- Worked closely with software developers to conduct testing as features were being developed.
- Provided timely feedback and assisted in the resolution of issues to maintain development momentum.

4. Exploratory Analysis:

- Performed exploratory analysis to uncover potential edge cases and corner scenarios that could lead to software defects.
- Collaborated with the team to implement solutions to mitigate risks associated with these edge cases.

5. User Acceptance Testing (UAT):

- Collaborated with software engineers and product owners during User Acceptance Testing (UAT) to ensure that releases met specified requirements and standards.
- Verified that the software aligned with user expectations and was ready for deployment.
